NEGRO MEETS DEATH AT HANDS OF AN UNKNOWN WHITE MAN.

DICK SMITH WAS THE VICTIM.

In the Melce Another Colored Man. Archie Billups, Receives a Ball in His Arm-The Man With the Pistol

Dick Smith, a negro thug, who had for some time been running things with a high hand on lower Seventeenth street, Seventeenth and Grace streets, by an unknown white man, and in the melee that ensued another negro, Archie Billups, who was playing a game of bagatelle in the bar-room, was shot in the arm. The man who did the shooting made his es-

The negro Smith had been a prisoner in the city jail, and was known to the police as a bad man. He went away from Richmond some months ago, and only returned here about six weeks since. He hung out around the bar-room in front of which he met his death last night, and was more or less under the influence of liquor all the time. He was wont to carry a dirk had been contemplated. It is not expected that the relief though they were described as being well will be carried in warships, as this dressed, approached. One of them, apparently about 23 years of age, and who is said to have worn a sandy moustache and a dark derby hat and dark coat, engaged the next few days, asking a large appropriation for the relief of the destitution in heated nature passed between them, and ers, the white man was heard to accuse the negro of having insulted him. This the negro denied, whereupon the white man called him a liar. Smith replied with a volley of oaths attached to a most opprobrious epithet, which he hurled at the

DREW HIS PISTOL AND FIRED.

No sooner had he uttered them, however, than the tramp, or whatever he was, drew a pistol and fired point blank at him. The ball took effect in the negro's abdomen, and passed below his liver. Smith, as soon as he was shot, ran into bar-room and started to leave it through a door opening out on to Grac street. The white man followed him into the bar still shooting at him, and this act tampeded the crowd of negroes within Archie Billups, who was in the act of

making a shot on the bagatelle table, dropped his cue and started through the Grace-street door after Smith. The white man, still shooting, fired at Billups, and the ball took effect in his left arm, just below the shoulder. The man with the pistol continued to shoot, and fired two s in quick succession into the door-He followed Smith out on to Grace treet and fired another shot at him as he fled toward Sixteenth street, and then turning toward Eighteenth street, rushed off, closely followed by his companion.

DIED IN THE AMBULANCE.

Smith ran until he reached Sixteenth street, where he fell. The police came upon the scene about that time, but the white men had made good their escape, and all efforts to trace them last night proved futile. Smith and Billups were taken to the First Police Station and the ambulance summoned. Dr. McGowan took charge of the wounded men and carried them to the almshouse, but on the way Smith died. Billups will soon be out again The Coroner was notified of Smith's death, and will view the body to-day.

Form-Spanish Maine Report Received at Washington-War Preparations Continue.

WASHINGTON, March 28 .- To-day has been one of action in every branch of official life. Seldom has a day been replete with so many diverse and important phases of a single subject, and yet, throughout this activity the prevailing tone, as received from administration sources, has been more reassuring, more in the line of peace, than it has been for some days. This was the impression conveyed by Cabinet officers after the special Cabinet session. The same sentiment characterized the diplomatic conferences at the State Department. But in Congress, which afforded the greatest field for anti-Spanish and warlike expressions, a strain of discontent and uneasiness prevailed, after the President's message and the Maine report were submitted, espe-

cially on the House side. The President's message, submitting the Maine report and accompanying evidence. was the main event of the day. Those who had anticipated that the message would contribute to the aggressive spirit were disappointed. It contained no sur-

A special Cabinet session was held to go over the President's mestage, and more particularly to consider the developments in the negotiations now proceed ing with Spain. These had assumed a wide field, embracing not only the Mainquestion, but the entire Cuban problem. The answer of Spain was in hand to th firm note sent through Minister Woodford last week, stating that the condition of Cuban affairs had become so intolerable that the United States could not much longer remain inactive toward it. Th of the Spanish answer impressed President and Cabinet officers favorably, so much so that the meeting it was stated members that the outlook was far more reassuring, and that Spain had shown such a conciliatory tone that it was believed she would make concessions sufficient to permit an amicable adjust-ment of the present strained relations. This was qualified, however, by the state was shot and killed last night in front of L. Rocchiccioll's bar-room, corner of longer a probability, was yet a possibility.

TWO NEW PHASES. Meantime, at the State Department cablegrams were being received from Minister Woodford, and the Spanish Min-ister. Senor Polo y Bernabe, was in lengthy conference with Judge Day as to the prespective adjustment. The meet-ing between the Spanish Minister and Judge Day came after the Cabinet con-ference, so that such representations as Spain submitted through him did not get before the Cabinet.

At least two of these new phases sub-mitted by the Minister are of considerable importance. He stated that no objection would be made to the humanitarian ob-jects of the United States Government in extending relief to the sufferers in Cuba on a far greater scale than hitherto the humane purposes animating this country, and that it does not doubt that would introduce a political aspect into a

This acquiescence by Spain clears the this, attracting the attention of by-stand- ment which reached the government duwhich investigated the destruction of the Maine. It is the only answer Spain has thus far made to the action of this government in submitting to Spain through Minister Woodford the findings of the American court. The conclusions reached by the Spanish commission are directly the opposite of those of the American court. No demands have been made in connection with the Maine, and, therefore, there is no response beyond the submission of the Spanish report.

EUROPEAN MEDIATION. Following the call of the Spanish Min-ister at the State Department, the French Ambassador, M. Cambon, held a conference with Judge Day. This renewed the talk of European mediation, which is assuming tangible form. There is good is assuming tangible form. There is good reason to believe Spain is ready and anxious for this move, and has been encouraging it at the European capitals.

At the War and Navy Departments the stir of preparations continued, as usual. The Navy Department made plans for "greecults fleet," to be composed of a "mosquito flest," to be composed of tugs and steam yachts recently pur-chased and armed as an auxiliary fleet. The War Department made numerous

The trouble with us nowadays is, that we do not lead nat ural lives. The feminine portion of our society is especially culpable in this way. It is really a wonder that women are as healthy as they are Very few women get any outdoor exer-cise. Very many get no exercise at all. gienic laws are broken. It is little wonder that nine women in ten are troubled with some derangement or irregularity in the action of the organs distinctly feminine. Neglect and wrong living will show themselves first in the most delicate organs of the whole body. With such weakness and sickness so prevalent, it is to be expected that the bearing of children would be fraught with dread and danger. It should not be so, of course. Nature never meant it to be so. The performance of the highest function of which a woman is capable should not be accompanied by pain. If perfectly natural living were the rule, it would not be so. As lives are lived, something else must be done. A remedy must be found. For over thirty years, Dr. Pierce has been chief consulting physician to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. During that time he has treated thousands of women. He has found in his "Favorite Prescription" a never-failing specific for female complaints. It strengthens the whole body and when taken during gestation, shortens the period of labor and makes childbirth well-nigh painless. It also promotes an abundant secretion of nourishment for the child.

0-----

The meetings at Grace-Street tabernacle are evidently growing in power. The congregations on Sunday were immenge, and Dr. Hale's appeals seemed to stir the people to the depths of their souls. There were a great number of conversions at night, following the sermon on the "Prodigal Son." There were ten conversions last night. Dr. Hale will preach this afternoon on "The Christian as a Lamp," and to-night on "Excuses for Not Becoming a Christian." Mr. Watkins sings at most of these services, and Dr. Clements sang a solo last night.

Rev. F. Hez. Swem is having great congregations at tithe First Baptist church, and deep interest is manifested. The sermon last night on sin was an especially fine one. There will be services to-day at 4:39 and 8 P. M.

The afternoon hour is given to Bible study. On Wednesday afternoon the Evangelist will repeat, by request, the sermon on recognition of departed ones in the future world. The singing by the chorus at the night services is a very attractive feature, and greatly adds to the interest of the hour.

The revival services, which have been conducted at Centenary by Rev. Dr. Tudor will be continued during the week.

Junk Dealers to Report Daily. The junk dealers met in the office of the Chief of Police yesterday, and had the law recently passed by the Legisla-ture in regard to their trade explained to them. The most important section reads: Every junk dealer doing business

be prescribed by such Chief of Police, a legible and correct transcript from his book or books of his transactions of the previous day. No junk dealer shall sell, melt, change the form of, or dispose of any article bought or received by him which he is required by this act to make record of and report within five days after such report."

The blanks will be ready in a day or two, and the Chief notified the dealers that their first report would be expected next Menday morning before it edeals.
